

Women's Change Room Renovation Update

Attention All Fairwinds Centre Patrons

- ◆ Construction continues to move along on schedule, with mainly just finishing work left to complete, so we are getting close!
- ◆ The tile work has been completed for the most part, as well as all exterior and structural work and insulation.
- ◆ We are now working on getting the new shower stalls in place...
...all 3 of them!
- ◆ After that we are just waiting on the new wood lockers to be delivered and installed
- ◆ Things are progressing nicely, and we look forward to being able to update you further, and give you a date for re-opening soon

Thank you again for your patience

We understand that this is an inconvenience to our Members, but we are excited to have a *New Modern* change room facility !
