

Fairwinds Golf Club Members & Guests

After careful consideration, Fairwinds Ownership & Management has made the decision to close the Fairwinds Golf Club & corresponding food and beverage services effective end of the day today, Monday, March 16th, until further notice.

The situation with Coronavirus (COVID-19) is evolving rapidly and our top priority is the safety of our members, guests and staff. We have been fortunate that no members of our community (that we are aware of) have tested positive for the virus, but due to the high risk associated with social contact, we believe this is the best decision at this time.

This is not only the best decision for our Fairwinds Golf Club community, as we will also be doing our part in helping to slow the progress of this virus in BC and Canada. Without drastic action, a catastrophic overburdening of our health care system is projected.

We understand this closure will have a significant impact on our community. If you have further questions about the closure, please email the Fairwinds Golf Club Manager at rwilson@fairwinds.ca. We kindly ask for your patience as we endeavour to answer them, and we will also plan to provide updates as the situation continues to evolve.

This is an unprecedented situation for all of us and we value your understanding and patience as we navigate these unprecedented and challenging times.

Yours sincerely,
Fairwinds Ownership
