

FAIRWINDS

WELLNESS CLUB

Fairwinds Wellness Club Members & Guests

After careful consideration, Fairwinds' ownership and management has made the decision to close the Fairwinds Wellness Club effective 5 pm today, Monday, March 16th, until further notice.

The situation with Coronavirus (COVID-19) is evolving rapidly and our top priority is the safety of our members, guests, and staff. We have been fortunate that no members of our community (that we are aware of) have tested positive for the virus, but due to the high risk associated with social contact, we believe this is the best decision at this time.

This is not only the best decision for our Fairwinds Wellness Club community, but also the wisest choice for the health and safety of the wider population, as we will also be doing our part in helping to slow the progress of this virus in BC and Canada. Without drastic action, scientific projections state that we risk placing a catastrophic burden on our healthcare system.

We understand this closure will have a significant impact on our community. If you have further questions about the closure, please email the Fairwinds Wellness Club Manager at kmarcan@fairwinds.ca. We kindly ask for your patience as we endeavor to respond; we plan to provide updates as the situation continues to evolve.

Yours sincerely,

Fairwinds Ownership
